JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Turkey.—August 18. Arrivals from all Russian ports of the Black Sea between Batoom and Sulina, inclusive, shall be subject at the lazaretto of Sinope or that of Kavak to medical inspection with disinfection of effects of passengers of the third class and crew.

Arrivals from Rostov, Taganrog, Noworssynsk, and Batoom subject to 5 days' quarantine with disinfection at the lazaretto of Sinope. Travelers from those ports shall be subject to 5 days' observation at their places of destination.

Food products and articles of clothing or merchandise which are susceptible to infection are forbidden importation into Turkey from Russia.

Russian vessels from the Black Sea carrying a large number of passengers shall be subject at the lazaretto of Sinope to 5 days' quarantine with disinfection and measures of rat destruction. This quarantine shall begin with the time of transshipment of the passengers and crew and the disinfection of their effects.

Pilgrim ships and others from Russian ports of the Black Sea which carry more than one pilgrim to every 100 tons registered shall be subject to the same measures; when the period of quarantine is concluded said vessels shall pass the Straits of the Dardanelles or the Bosphorus in contumacy and repair direct to the lazaretto of Abou-Saad (Jiddah) or to that of Sinope, Kavak, or the lazarettoes of Smyrna and Beirut, there to take on coal and water and pilgrims.
